KEY FEATURES

Onboard Green Energy Motor

Our revolutionary technology paired with advanced engineering generates greater air movement with less fan movement, creating a superior environment wherever you need air extraction.

Powerful Airflow

With impressive airflow and control, this air extractor quickly and effectively removes smoke, steam, heat, odours, and other airborne particles from the room.

Switch Control

The simplicity of filtering the air with the flick of a switch. This rangehood is connected to the same power that controls your lights. This exhaust fan can also be connected to the same switch as the rooms light for convenient and consistent ventilation.

Aluminium Filters

Ideal for providing superior filtration capabilities where needed with layers of metal grids that capture steam, airborne particles, odours, grease, smoke and more.

Slimline Design

Seamlessly hides away and blends in with your ceiling, with powerful extraction to remove steam, smoke, odours and grease. It's the perfect design for any bathroom, butlers pantry, laundry or work space that combines functionality and style.

European Made Motor

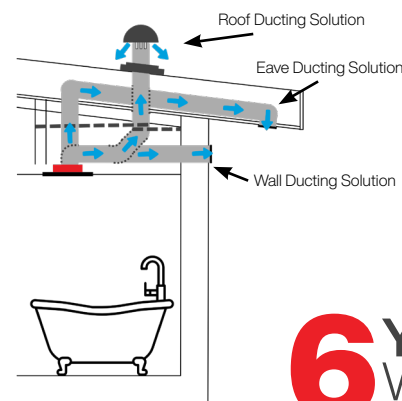

Partnering with the best European motor manufacturers to create the ultimate range of motors that provide the maximum in performance without the noise, that are specifically designed for the Australian home.

Hand-Crafted in Italy

Quality, functionality, innovation, style & luxury hand-crafted in Italy. Leading the market in design and functionality, this collection has been specifically handpicked for Australian living.

DUCTING SOLUTIONS

Sirius has its own range of ducting components, designed to get the most power and efficiency out of its hoods. The full range of high quality, cost effective ducting will provide you with the best result for your rangehood.
