KEY FEATURES

Green Energy Single Motor

Performance and quiet efficiency are the most important elements in the performance of your Sirius hood. Sirius has worked tirelessly to create a product that ticks all the boxes.

Anti-Condensation Heated Glass

Heated glass prevents condensation by maintaining a 45-degree temperature inhibiting moisture buildup that doesn't allow condensation to drip on to the cooking surface. Perfect for induction cooking.

Aluminium Mesh Filters

Easy to install and maintain, but it also provides superior filtration capabilities. Designed with a special deep pleat design that helps capture cooking odours before they enter the room.

Powerful Extraction

With a maximum airflow of 800M3/H, this rangehood quickly and effectively removes smoke, steam, heat, odours, and other airborne particles from areas requiring ventilation.

Dynamic Lighting

Sirius Rangehoods have a dynamic lighting system that can be adjusted from 2700 to 6500 kelvin to match other lighting in the room. Adjustable temperature, and dimmable. Maximum design flexibility.

Hand Crafted In Italy

Sirius Rangehoods, a prestigious Italian brand founded in 1996, is renowned for its bold designs and commitment to premium materials and craftsmanship, making it a top choice for high-end rangehoods.

Slimline Installation

Slim design fits seamlessly into minimalist kitchens. Strong extraction power and modern design ideal for luxurious kitchen setups.

4 Speed settings

Sirius Rangehoods offer 4 speed settings. Levels 1 to 3 for light to normal cooking and level 4 for smoky or intense cooking. Covering all your cooking needs.
