## KEY FEATURES

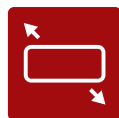

### Green Energy Single Motor

Performance and quiet efficiency are the most important elements in the performance of your Sirius hood. Sirius has worked tirelessly to create a product that ticks all the boxes.

### Anti-Condensation Heated Glass

Heated glass prevents condensation by maintaining a 45-degree temperature inhibiting moisture buildup that doesn't allow condensation to drip on to the cooking surface. Perfect for induction cooking.

### Extra Deep

An extra deep range hood is more effective in capturing and removing cooking odours and airborne particles, providing superior ventilation and a cleaner kitchen environment.

### Powerful Extraction

With a maximum airflow of 800M3/H, this rangehood quickly and effectively removes smoke, steam, heat, odours, and other airborne particles from areas requiring ventilation.

### Dynamic Lighting

Sirius Rangehoods have a dynamic lighting system that can be adjusted from 2700 to 6500 kelvin to match other lighting in the room. Adjustable temperature, and dimmable. Maximum design flexibility.

### Hand Crafted In Italy

Sirius Rangehoods, a prestigious Italian brand founded in 1996, is renowned for its bold designs and commitment to premium materials and craftsmanship, making it a top choice for high-end rangehoods.

### Aluminium Mesh Filters

Easy to install and maintain, but it also provides superior filtration capabilities. Designed with a special deep pleat design that helps capture cooking odours before they enter the room.

### 4 Speed settings

Sirius Rangehoods offer 4 speed settings. Levels 1 to 3 for light to normal cooking and level 4 for smoky or intense cooking. Covering all your cooking needs.
