KEY FEATURES

Offboard Green Energy Motor

Our revolutionary technology paired with advanced engineering generates greater air movement with less fan movement, creating a superior cooking environment.

Powerful Airflow

With impressive airflow and control, this rangehood quickly and effectively removes smoke, steam, heat, odours, and other airborne particles from the kitchen. Conveniently controlled with 4 speed settings.

Dynamic Lighting

Adjust the lighting to suit your needs with our Dynamic Lighting System (DLS) with the flexibility to match the rooms lighting by adjusting the Kelvin between 2700 to 6500 or dim to set the mood. Also adjustable with the Sirius App.

Mesh Filter

Our mesh filters are made to ensure superior durability and filtration performance. Trapping grease, oils, smoke and odours during cooking, their design also helps reduce possible fire hazards. Eco-friendly, cost-effective, easy to install and easy to clean in the dishwasher.

Remote Control

This rangehood comes with a convenient remote control, giving you the ability to operate the hood from a distance. Designed to be simple and intuitive, it allows you to effortlessly adjust the fan speed, lighting, timer settings and built-in features at an easy touch of a button.

Recirculated Option

Recirculating your rangehood filters the air and blows it back into the room, and often requires a carbon or charcoal filter to help clean the air. This is a good option for small spaces or if you can't duct to the outside atmosphere.

Induction Suited

This rangehood has the sufficient extraction required to facilitate induction cooking. As induction cooking uses the base of the pan as the heat source, less moisture and steam is evaporated before it reaches the filters. This can create drops of water that drip into your cooking.

Mounting Kit

A proud mount kit helps with installing a ceiling cassette where flush install or installation into a fixed bulk-head is unavailable. This kit creates a small 'bulk-head' housing for the ceiling cassette, while complementing the kitchen aesthetics.

Hand-Crafted in Italy

Pioneering downdrafts since 2001, Sirius were the first to introduce this innovative rangehood. Quality, functionality, innovation, style & luxury hand-crafted in Italy. Leading the market in design and functionality, this collection has been specifically handpicked for Australian living.

*Note noise level is an approximate range and subject to installation and surrounding materials.

^Product is manufactured in Italy, ratings are based on European directive 65/2014 regulations.
